LOGAN COUNTY GIS PRODUCTS

PRICE LIST

Paper Prints:

Size	Price
36" x 24" or 36" x 36"	**$50** per layout + **$10** ea. add'l. print
11" x 17" or smaller	**$30** per layout + **$10** ea. add'l. print

Digital Aerial Orthophotography (2004 b/w):

Price

MrSID	**$250** / Township – 6 inch pixel
MrSID	**$1000** / countywide – 1 foot pixel
TIFF	**$ 0.50** / Acre + **$50** / Hour labor (1 hr. minimum)

TIFF's will be sold by individual tiles measuring 2000 ft. x 2000 ft, approximately 92 Acres apiece. File format will be .tif with the .tfw reference file for each tile.

Ex.   1 Tile = $46 + $50 = $96
        2 Tiles = $92 + $50 = $142
        3 Tiles = $138 + $50 = $188

Parcel Data:

Available as an ESRI personal geodatabase. Copies will be put on a CD-R.

Price
$2,000 for county-wide data
$250.00 for each update requested

Smaller areas can be made available by specifying a boundary polygon. Cost will be $ 0.20 / parcel contained within the boundary, plus the consultant cost to split out the data from the county-wide geodatabase. The consultant cost will be an hourly rate. There will be a $100 minimum charge for the data.

Ordering: Anyone ordering digital products will be required to sign the <u>LICENSE AGREEMENT</u> before delivery can be made.
